Approved signature

Instructions for Avert Request

Commission policy allows lenders to avert submitted claims for insurance within 30 days of the lender's submission date (counted from the date the claim is mailed from the lender's office to the date the avert request is received at the Commission's Claims Office).

If you cannot make the avert request within this 30-day timeframe, then an avert will **not** be processed. You will be expected to repurchase the claim, should you wish to continue servicing the loan(s) in the claim package, only after the claim is paid.

Complete **all** sections on the Repurchase Request defined as:

Borrower Social Security number	Print the affected borrower(s) nine-digit Social Security number(s).
--	--

Borrower name (last, first) Print the borrower(s) complete last and first name.

LN type Print the symbol for the claim(s) loan type(s). See the legend marked by a * on the front of this form.

LN NBR Print the loan number from FAPS, if known. (This can be obtained from the FAPS ON LINE system.

Although an optional field, this is the best identifier of loan(s) a lender wants to avert).

LN AMT Print the original loan amount which was guaranteed for the loan(s) being averted.

• Include only if the Commission assigned Loan Number is not included.

Disb. Date Print the date of the first disbursement of the loan(s) being averted.

• Include only if the Commission assigned Loan Number is not included.

Lender ID Print the lender ID number for the loan(s) being averted.

Clm Rcd Do not fill in any information in this field.
